BOROUGH OF GLASTONBURY.

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH FOR THE YEAR
ENDED 31st DECEMBER, 1965.

Tel: Shepton Mallet 2237
Wells 2643
(Residence)

Area Health Department,
U.D.C. Building,
Shepton Mallet,
Somerset.

10th October, 1966.

To The Mayor, Aldermen and Councillors of the
Glastonbury Borough Council.

Mr. Mayor, Aldermen and Councillors,

I beg to submit the Annual Report for 1965, prepared in accordance with the Public Health Officers Regulations, 1959, and Ministry of Health Circular 1/66 of 11th January, 1966.

The Vital Statistics indicate a reasonably healthy population in the Borough with an increase of births over deaths, low stillbirth and death rates, and no infant or maternal mortality. An attempt is made to show some of the statistics over the 5 year period 1961-65 but this is not a full picture as Corrected Birth and Death Rates were not given for the years 1961-62. The figures available would appear to indicate a falling off in the birth rate but at the same time a similar fall in the death rate.

Brucellosis in cattle continued to be a problem in a community where much raw milk is drunk and in one case it was necessary to apply a Heat Treatment Order on the milk from one herd for a period of six weeks.

Regular sampling of the output of the Liquid Egg Pasteurisation Plant in the Borough was maintained by the Public Health Department and only 2 samples failed to pass the test.

I am again most grateful to the Surveyor and Public Health Inspector for his continued vigilance and co-operation; and to his staff for the printing of this Report. My thanks are also due to the Clerk and other Officers of the Council for their support, to the Members of the Public Health Committee, and to my colleagues in the Town.

I have the honour to be,

Your obedient servant,

D. E. CLARE.

Medical Officer of Health.

GENERAL STATISTICS, 1965.

Area of Borough (in acres).....	5,019
Population (mid year 1965).....	6,130
Number of inhabited houses.....	2,035
Rateable Value..at.1/4/66.....	£237,070
Product of a Penny Rate.at.1/4/66.....	£962

NOTES ON VITAL STATISTICS FOR 1965.

(Although as a general rule the figures are too small for much significance to be attached to them, nevertheless certain broad statements can be made).

Population.

An increase of 20 over the mid-year population of the Borough for 1964 was estimated by the Registrar-General, and births exceeded deaths by 36.

Births.

Live Births, - totalled 12 less than in the previous year, with a corresponding drop in the Recorded Birth Rate, but when this is adjusted by the Area Births Comparability Factor, which makes allowance for the age structure of the Borough, a figure is obtained closely approximating that of the County as a whole but less than the national average. With 6 illegitimate live births, the percentage of these remained much the same as in 1964.

Still Births - with only 1, as in each of the three previous years, the Still Birth Rate remained markedly better than the County or National figures.

Deaths.

All Ages - deaths fell once again, with a similar drop to the previous year and both the Recorded and Corrected Death Rates were noticeably less than the County and National rates.

Infant Mortality - it is a pleasure to record that there were no infant deaths during 1965, and the Perinatal Mortality Rate remained the same as the Still Birth Rate.

Maternal Mortality - there were again no deaths in the Borough in women as a result of pregnancy, childbirth, or abortion.

Causes of Death.

Cardio-Vascular Diseases - again caused the most deaths (25) but totalled 15 less than in 1964. Coronary and Other Heart Diseases accounted for 15 of these and Vascular Lesions of the Nervous System for 8.

Cancer.- accounted for 16 deaths, with a rise of 4 above the totals for the two previous years and with regard to site it will be seen that Lymphatic and Other Malignant Neoplasms totalled 9 followed by Lung and Bronchus (4), Breast (2) and Stomach (1). All the Lung Cancer deaths were in males.

Respiratory Diseases - caused 7 deaths, all in the latter age groups.

Accidents - unfortunately caused 3 deaths during the year, all involving a motor vehicle, and 2 of the victims were under 25 years of age.

NOTIFIABLE DISEASES.

Apart from a minor outbreak of measles, no other notifiable diseases were reported during the year.

ANNUAL RETURN OF FOOD POISONING
NOTIFICATIONS

There were again no cases of Food Poisoning notified during the year.

NATIONAL ASSISTANCE ACT, 1948 (Sec. 47)
AND AMENDMENT ACT, 1951.

No cases occurred requiring action under the provision of these Acts.

| (d) Number of Wells Closed. | Nil |
| (e) Number of Houses (including isolated farms) relying on a private well supply. | One |

DRAINAGE AND SEWERAGE.

Extensions and Improvements during the year.

A new Sewage Pumping Station constructed in connection with Housing Development extension to "Thorndun" Estate and new Sewage Pumping Main laid from Wells Road to Manor House Road to take sewage discharged from Wells Road and the new "Thorndun" Estate Pumping Station.

Future Proposals.

Sewage Pumping Station and Pumping Main adjoining Paradise allotments to take drainage of a housing development scheme proposed to be carried out by the Council, North of Benedict Street and West of Northload Street, for approximately 250 houses.

Sewage and Trade Waste Disposal Scheme.

The Sewage and Trade Waste Disposal Plant continues to work satisfactorily.

REGISTERED COMMON LODGING HOUSES.

No registered common lodging houses with the Borough, therefore no action necessary during the year.

23	4	-	11

Since the War, up to the end of 1965 a total of 391 new dwellings have been completed by the Local Authority, 337 by Private Enterprise and 61 units of accommodation have been provided by conversion, adaptation, or reconstruction, making provision for 789 families in all.

Up to the end of 1965 action has been taken under Section 16 of the Housing Act, 1957, in respect of 125 houses, and in all cases the Owners gave written undertakings in accordance with the Act not to relet them for human habitation when they became vacant. At the end of the year 3 of these dwellings remained occupied. Five dwellings have been reconstructed and brought back into use as dwellings. Eighty-seven Houses have been demolished, and six houses have been purchased by Agreement, and demolished or closed, in connection with the Redevelopment of Hill Head Area.

Negotiations are still proceeding for the purchase of houses on the South side of Hill Head, for the purpose of demolition of the houses and redevelopment of the area.

IMPROVEMENT GRANTS.

A. Discretionary

Number of applications and houses dealt with by Local Authority during year:-

(1) Received		(2) Approved
